Summary

With over 2.5 years of experience and a BSc Hons Degree in Information Technology, I am a versatile UI/UX Designer and Front-End Developer, skilled in creating user-centered interfaces and seamless web experiences. I bring expertise in user research, User flow diagrams, and designing low- and high-fidelity mockups to inform intuitive designs. My front-end work spans HTML, CSS, and frameworks like React and Vue, alongside libraries like MUI, Ant Design, and ShadCN UI. Known for delivering cohesive, visually engaging, and accessible products, I align user needs with business goals through collaborative, research-driven design.

Education

BSc (Hons) in Information Technology Specializing in Information Technology (SLIIT)

Professional Experience

Innovative-e (Pvt) Ltd

Associate UI/UX Engineer | february 2023 - Present

- Conducted user research and usability testing to gather insights, informing personas, journey maps, and user stories.
- Create user interfaces, wireframes, and interactive prototypes using Figma and Adobe XD, ensuring seamless user experiences, design high-quality visuals and graphics with Adobe Photoshop to enhance aesthetic appeal and brand consistency.
- Created wireframes, low fidelity and high-fidelity mockups, and interactive prototypes, iterating based on feedback.
- Collaborate with developers to implement responsive and interactive UI components.
- Designed visually cohesive and brand-aligned interfaces optimized for desktop, tablet, and mobile devices.
- Developed responsive and interactive UI components using HTML, CSS, JavaScript and frameworks like React and Vue, leveraging style libraries including MUI, Ant Design, ShadCN UI, Bootstrap, and Tailwind CSS.
- Collaborated with product managers, developers, and designers to ensure design goals were met within Agile workflows.
- Conducted A/B testing and usability analysis, implementing feedback to enhance user experience.
- Maintained design quality and consistency through adherence to design systems and brand guidelines.
- Utilized Photoshop to create visually appealing designs and assets for web applications and poster designing.
- Collaborated closely with designers and developers to transform ideas into intuitive and visually compelling user interfaces, enhancing usability and driving user or customer satisfaction.
- Ensured cross-browser compatibility for seamless user experiences across different browsers (Chrome, Firefox, Safari, Edge).
- Created graphics, navigation elements, buttons, fields, and other UI components, focusing on interactions and optimizing user interfaces for improved usability.
- Developed and managed the official company website using WordPress, ensuring a professional and user-friendly online presence.
- Optimized website SEO using AIOSEO, improving keyword rankings, meta tags, and site performance.

- Kept abreast of emerging design trends, tools, and technologies, applying them to create modern, user-focused designs and improve product quality.
- Maintain and manage code versioning efficiently using GitHub to ensure collaboration and code consistency.
- Integrated Google Analytics to track and analyze website performance, user behavior, and engagement metrics, enabling data-driven insights for website optimization.
- Collaborated with cross-functional teams, including developers, product managers, and designers, to deliver user-centric solutions and meet project objectives.
- Actively participated in brainstorming sessions, contributing innovative ideas to improve product design, functionality, and user experience.

Tools & Technology : Figma, Adobe XD, Photoshop, HTML, Css, JavaScript, [eact Js, Vue js, Visual Studio Code, Git, GitHub, WordPress, SharePoint, Tailwind, MUI, Bootstrap

Codelantic (Pvt) Ltd **Trainee Software Engineer (Front-end) | August 2021 - March 2022**

- Developed responsive and accessible web applications using HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, and MySQL for projects such as property listings and community center applications.
- Optimized website performance by improving load times and reducing file sizes, enhancing user experience and SEO.
- Designed responsive layouts using CSS Flexbox/Grid, ensuring optimal performance and usability on mobile, tablet, and desktop screens.
- Collaborated in maintaining or contributing to design systems or style guides to ensure a consistent visual language across applications.
- Ensured cross-browser compatibility for seamless user experiences across different browsers (Chrome, Firefox, Safari, Edge).
- Gathered and analyzed requirements from Business Analysts to accurately define project scope and deliverables.
- Utilized Jira for task management and to track requirements, priorities, and project timelines effectively.
- Used Git and GitHub for version control, collaborating with team members and managing code changes effectively.
- Maintained high coding standards and best practices to ensure clean, maintainable code and smooth development processes.

Tools & Technology : HTML, Css, JavaScript, Bootstrap, Visual Studio Code, Git, GitLab, PHP, MySql, Xampp, WordPress

SpeedCodeLabs (Pvt) Ltd. **Intern UI/UX Designer & UI Developer | february 2021 - August 2021**

- Designed and developed the official company website to establish a professional and user-friendly online presence, ensuring alignment with brand identity.
- Created intuitive and visually appealing user interfaces through UI/UX design principles, focusing on user-centered design to enhance overall usability.
- Built responsive web layouts with HTML, CSS, and JavaScript, ensuring the website's functionality and aesthetics across desktop, tablet, and mobile devices.
- Collaborated with team members to gather and analyze requirements, contributing to a user-focused design process and project alignment.
- Gained hands-on experience with front-end development tools and best practices, optimizing for performance and accessibility.
- Actively participated in brainstorming sessions, contributing innovative ideas to improve product design, functionality, and user experience.

Tools & Technology : Figma, Adobe XD, Adobe Photoshop, HTML, Css, JavaScript, GitHub, Azure DevOps, Visual Studio Code
